Arrayved Customer Setup

Cloud Integration

This integration requires that you create a user in the Arrayved portal with “portal admin” enabled and “reporting” permissions using our specified email address.

Setup Instructions

1. Click Employees on the right navigation menu.
2. Click View Employees in the sub-menu of Employees.
3. Add a new employee with portal admin privileges of “REPORTING” to the profile.
4. Create the user with this email address: `btverify@gmail.com`
5. Enable Portal Admin check box and save the user.

portal.arrayved.com/#viewEmployees
