# Arrayved Customer Setup

## Cloud Integration

This integration requires that you create a user in the Arrayved portal with “portal admin” enabled and “reporting” permissions using our specified email address.

## Setup Instructions

1. Click Employees on the right navigation menu.
2. Click View Employees in the sub-menu of Employees.
3. Add a new employee with portal admin privileges of “REPORTING” to the profile.
4. Create the user with this email address: `btverify@gmail.com`
5. Enable Portal Admin check box and save the user.
